To whom it may concern

I confirm that I have known Ginger Mayerson for 14 years.

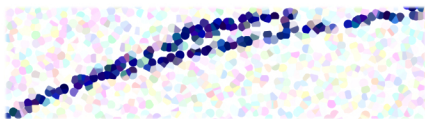

During that time, I have worked with Ms Mayerson on a variety of publishing projects, some commercial and some more light-hearted.

Ms Mayerson has always been a considerate project manager and co-worker. She is adept at specifying and securing the input that a project requires, supporting everyone who is involved, and enabling a team of peers to deliver their best and to share a sense of real achievement. She always meets her own deadlines and is tactful and effective in ensuring that entire projects are similarly delivered on time.

I have no hesitation in recommending Ms Mayerson for a position in your organization.

I'm happy to provide further information if required.

Yours faithfully
